COVID 19 Measures for your safety

For all guests

- The health and safety of all our guests and staff is our main concern.
- Please do not travel to The Nightingale Centre even if you have a booking, if you feel in any way unwell or have been tested for Covid 19 and are awaiting the results. We strongly recommend that guests take a Covid-19 Rapid Antigen self test prior to their visit.
- There will be a necessary temperature check upon your arrival. You will be asked either to use the QR code app or provide your contact details for 'test and trace'
- Please use the sanitising dispensers situated at the entrances to the building and the dining room.
- Please follow ALL signage especially the one way system for entering and leaving the dining room.
- Please read the 'Notice to Customers' advice document and respect the social distancing measures in public areas and mask wearing advice in operation.
- Please be prepared to carry your own luggage to your bedroom.
- We are unable to provide housekeeping or maintenance services when you are in your bedroom.
- If taken ill during your stay, self-isolate in your bedroom and contact the office on 01298 871218 during office hours 10.00am – 2.00pm or at other times your group leader or designated fire officer.
- On your day of departure please remove the bedding (pillowcases, sheet and duvet cover) and leave them in a neat pile together with towels in your room.
